GMRG Standardisation Cost Charges	Please refer to 'Standardisation Cost Charges' as published on the website			

Tariff Adjustment

The annual tariff adjustment formula is:

$$T_n = T_{n-1} \times \left[1 + \left(\frac{CPI_{n-1} - CPI_{n-2}}{CPI_{n-2}} \right) \right]$$

where:

- T_n = relevant Service Charge, applicable from Review Date (in year n)
- T_{n-1} = relevant Service Charge in Base year
- CPI = Consumer Price Index (All Groups weighted Average of Eight Capital Cities) published quarterly by the Australian Beareau of Statistics.
- CPI_{n-1} means the CPI published for the September quarter immediately before revelant Review Date
- CPI_{n-2} means the CPI published for the September quarter for the prior year before year n-1
